FINANCE AND COMMERCE

Washington, Saturday Evening.
The bear movement in out guaranteed 3-65's continues, and the combination in New York have some assistance in Washing, on. The bonds actually appear weak on the street to-day, and the usual semi-holiday in New York, which has curtailed the transactions there, has been used to effect a downward movement. But is will be difficuit and slow to establish lower rates, and before the objects of the movement are secured they will take another turn of activity and appreciation. The rates at the Washington stock board were 13%@74 for large orders, and 75%@74 for small. In New York the rate has been 14@74%... with sales as low as 75%, cleatny at 74 bid.

with sales as low as 75%, closing at 74 bid.

Early in the week the 8 per ceas, greenbacks took the course we anticipated, and have now reached a high degree of activity at advanced rates. The sales on the street must have aggregated \$50,000 at rates ranging between \$90,460,000.

During the latter part of the week gold strengthened and advanced under an active movement. Sales in Washington have averaged \$5,000.

\$4,000 daily.

The heavy disbursements of the United States Treasury will be counterbalaseed by the export movement alruad, so that by natural and "bull-lish" artificial causes we may look for higher premium. It has been predicted by some, who evercetimate the developments, that 120 will be reached.

In Philadelphia to-day stocks were active in the absence of other uses for money. Messrs. Charles D. Harney & Co., stock and note brekers. Our Paris dispatches quote renes at \$3 francs 25 centimes.

The abundant supply of money at home and abroad, and the low rate of discount, must soon result in new ventures on the part of the heretofore conservative mercantile community, which will change the contracted channels of trade to good securities and real estate, (notwithstanding

One step in the latter direction is the fact that Messra. Trask & Stone have perpetrated a paragragh which bears lightly upon this point: "The lateness of the season throughout the country has tended to retard the spring trade, and there is some lear expressed that the surplus of our various products can only be marketed by a concession in prices, which may possibly be felt in other circles than those directly affected by such a conlingency."

The toreign commerce of the port of New York for the week was as follows: General merchandise imports, \$5,961,335; produce exports, \$4,964,337.

The total imports since January 1 this year were \$133,184,688, against \$161,225,215 in 1674, and \$163,221,777 in 1873.
